about the product!

Sandwich panels are high-performance products that meet the requirements of the modern construction market.

Suitable for the construction of exterior and interior wall claddings and ceilings of industrial or public utility facilities.

For the investor, it is a high quality product at a good price. For architects, it offers many possibilities in relation to the design intent. For construction managers, quick and easy installation. For construction supervision, friendly and transparent possibilities to verify the course of the entire process of construction execution from delivery until build acceptance.

<b>220</b>	<b>1050</b>	<b>5</b>	<b>4</b>	<b>1200</b>	<b>2400</b>	<b>31,5</b>	<b>1488,4</b>	<b>189,0</b>
<b>240</b>	<b>1050</b>	<b>5</b>	<b>4</b>	<b>1300</b>	<b>2600</b>	<b>33,5</b>	<b>1582,9</b>	<b>189,0</b>

\*\* Surface area of panels on car calculated for panel lengths of 9 m.

## External profiling

FLAT [F]

## Internal profiling

FLAT [F]

Internal and external profiling are available in any configuration.

## Coatings and colors

**POLIESTER Interior [INT]** - Available colors for interior cladding

**POLIESTER Standard [RAL]** - Available colors for exterior cladding

**HERCULIT [HC]**

**MULTILAYER 40 [MLT]** - Available colors for exterior cladding

Printing technology does not allow faithful rendering of colors. Therefore the colors shown are indicative and may differ from actual colors.

In addition, on individual order, non-standard colors and coatings are available, outside the palette shown (PVDF, PUR, PVC (P), PVC (F) - FoodSafe).
